FEDERAL FMPLOYEES SALARY ACTS

I THE FEDERAL EMPLOYEES SALARY ACTS

The Federal Employees Salary Act of 1948, which became effective July 11, 1948, for employees of this Department, is the latest amendment to the Classification Act of 1923 and makes several changes in addition to those established by the Federal Employees Pay Acts of 1945 and 1946. The major provisions of the several acts which may affect salaries within PMA are outlined below. The salary schedules included as a part of this Instruction are the basic salary rates established in accordance with the latest pay act and are the basis for pay-roll preparation within PMA. For the purpose of determining overtime, night differential, and holiday pay, the term "hours worked each week" shall include annual and sick leave and compensatory time off.

- A Annual Salary The basic annual salaries are increased by \$330 over and above the rates established by the Act of 1946 except (1) those salaries which by specific act are limited to \$10,000 per annum, and (2) that no officer or employee shall, by reason of any provision of the new act, be paid, with respect to any pay period, basic compensation or basic compensation plus any additional compensation provided by the Federal Employees Pay Act of 1945, as amended, at a rate in excess of \$10,330 per annum. Those employees paid on an hourly or part-time basis, however, shall receive additional compensation at the rate of 20 cents per hour in lieu of the \$330 increase.
- B Overtime Pay As in the past, overtime rates will be paid for any hours worked each week in excess of the regularly scheduled 40 hours in any administrative workweek, provided that such overtime hours are properly authorized or approved in writing. For any or all officially ordered and approved overtime, however, per annum employees may elect to take compensatory time off instead of receiving payment. The number of hours of compensatory time off shall not be more than the number of overtime hours worked. The overtime rate of pay is based on 1½ times the hourly rate for salaries of \$2980 or less and on a decreasing scale for salaries over \$2980, except that for the basic rates of \$6440 and over the overtime rate shall be a uniform one as established by the latest salary act.
- C Night Pay Differential If the regularly scheduled hours of assigned duty require that an employee work any hours between 6 p. m. and 6 a. m., he will be paid a night differential for such hours at the rate of 10 per cent in excess of his basic pay. The differential will be paid regardless of whether the night work on which it is based occurs during an overtime period or on a holiday.

FEDERAL EMPLOYEES SALARY ACTS

(I C)

It will be paid in addition to any extra pay for overtime or holiday work. The differential will not be included, however, in the basic rate of pay in computing any overtime or holiday pay to which an employee may be entitled.

D Holiday Pay

- l When Holidays Fall on Work Days If employees are required to work on a holiday which falls on a day within their basic 40-hour workweek, they will be compensated at twice their regular rate of pay for not to exceed eight hours or the number of hours in their regular workday, whichever is smaller, if they would have received straight time for not working. Any hours that are worked in excess of eight (or the number of hours in the regular workday if less than eight) will be added to other hours worked during the workweek to determine whether overtime is payable. Intermittent w. a. e. employees and part-time employees without a regularly scheduled tour of duty are not entitled to this extra holiday pay, unless it is established that they would have received straight time had they not worked. If such employees are not paid when they do not work on a holiday, they will be paid only straight time when they do work on a holiday.
- When Holidays Fall on Nonwork Days If employees are required to work on a holiday which falls on a nonwork day, they will not be paid twice the regular rate of pay. The hours worked, however, will be applied to the basic workweek to determine whether the employees are entitled to overtime.

E Salary Tables

- Exhibit A This U. S. Government salary table compiled for the basic 40-hour workweek shows the following information: Hourly and daily rates for regular salary, overtime hourly rate, current and former annual salary rates, gross biweekly salary, amount of 6% retirement deduction, net biweekly salary before tax deductions, and tax withheld and net to pay.
- 2 Exhibit B This schedule of annual salary rates shows the minimum, intermediate, and maximum salary rates for each service and grade therein except for Department of Agriculture (DA) grades.
- 3 Exhibit C This schedule of annual salary rates shows the minimum, intermediate, and maximum salary rates for each grade within the established DA classification grades.

UNITED STATES DEPARTMENT OF AGRICULTURE Production and Marketing Administration

ADMINISTRATIVE NOTICE NO. 112

UNITED STATES SAVINGS BONDS

A SOUND INVESTMENT - There is no investment more sound than your Government's Savings Bonds. Buy them and keep them to further security for your future and at the same time help fight inflation which is a menace to your welfare. The guaranteed values of the bonds, when held to maturity, pay a better return than any security with like stability.

A CONVENIENT PLAN - The Pay Roll plan is a convenient way for you to buy Savings Bonds. You simply fill out Treasury Form No. 2254, "Individual Authorization Card and Record of Pay Roll Allotments," authorizing the deduction of a specified sum from your salary each pay day, to be credited in your name toward the purchase of bonds in whatever denominations you specify. As soon as a sufficient amount has accumulated, a savings bond will be purchased. The bonds purchased for you will be delivered to you direct during the month in which they are bought, or will be held in the Treasury for safekeeping as you choose. This process will be repeated until you cancel your authorization. Then, any money that has accumulated to your account and is insufficient to buy a bond will be refunded to you at your request. The registration on the bond card may be in your name alone or may include the name of a co-owner or beneficiary. You may make changes in the amount of the deduction, denomination of bond, and the name of the co-owner or beneficiary by submitting a new authorization card to become effective when the bond for which deductions are currently being made is purchased.

COST OF BONDS - The range in denomination is from \$25 to \$1,000. The \$25 bond costs \$18.75; the \$50 bond, \$37.50; the \$100 bond, \$75; and so on. The pay roll deductions which you may authorize can be made in the amount of \$3.75; \$5.00, \$6.25, \$7.50, \$9.38, \$10.00, \$12.50, \$15.00 and \$18.75, or in multiples of any of these amounts. You are urged to authorize the largest possible deductions.

THIS IS YOUR CHANCE TO SHARE IN A SOUND INVESTMENT. THE PAY ROLL PLAN MAKES IT EASY FOR YOU. IF YOU WANT MORE INFORMATION ABOUT THIS SYSTEM OF SAVING, ASK YOUR SUPERVISOR TO DIRECT YOU TO YOUR MINUTEMAN. IF YOU ARE ALREADY BUYING BONDS UNDER THE PAY ROLL SAVINGS PLAN, YOU MAY WISH TO INCREASE YOUR PRESENT ALLOTMENT. IF YOU'VE CANCELLED YOUR BOND AUTHORIZATION, YOU MAY WISH TO RENEW IT NOW. GOOD BUDGETING SUGGESTS THAT AT LEAST 10 PER CENT OF CURRENT INCOME SHOULD BE PUT INTO SAVINGS.
